

SUPPLEMENT TO ANNUAL FUNDING NOTICE

Savannah River Nuclear Solutions, LLC Multiple Employer Pension Plan (“the Plan”)

Plan Year beginning 1/1/2014 and ending 12/31/2014 (“Plan Year”)

This is a temporary supplement to your annual funding notice which is required by the Moving Ahead for Progress in the 21st Century Act and the Highway and Transportation Funding Act of 2014. These federal laws changed how pension plans calculate their liabilities. The purpose of this supplement is to show you the effect of these changes. Prior to 2012, pension plans determined their liabilities using a two-year average of interest rates. Now pension plans also must take into account a 25-year average of interest rates. This means that interest rates likely will be higher and plan liabilities lower than they were under prior law. As a result, your employer may contribute less money to the plan at a time when market interest rates are at or near historical lows.

The “Information Table” compares the impact of using interest rates based on the 25-year average (the “adjusted interest rates”) and interest rates based on a two-year average on the Plan’s: (1) Funding Target Attainment Percentage, (2) Funding Shortfall, and (3) Minimum Required Contribution. The funding target attainment percentage is a measure of how well the plan is funded on a particular date. The funding shortfall is the amount by which liabilities exceed net plan assets. The minimum required contribution is the amount of money an employer is required by law to contribute to a plan in a given year. The following table shows this information determined with and without the adjusted interest rates. The information is provided for the Plan Year and for each of the two preceding plan years, if applicable.

INFORMATION TABLE						
	2014		2013		2012	
	With Adjusted Interest Rates	Without Adjusted Interest Rates	With Adjusted Interest Rates	Without Adjusted Interest Rates	With Adjusted Interest Rates	Without Adjusted Interest Rates
Funding Target Attainment Percentage	88.81%	67.75%	80.00%	67.54%	81.35%	68.08%
Funding Shortfall	\$290,895,501	\$1,099,438,474	\$526,283,760	\$1,004,465,699	\$524,840,531	\$985,014,666
Minimum Required Contribution	\$106,068,919	\$239,214,928	\$144,102,285	\$222,595,031	\$147,552,441	\$235,112,287

Entries for 2013 reflect actuarial asset values calculated without MAP-21 for purposes of required reporting to the Pension Benefit Guaranty Corporation, rather than the actuarial asset value in Line 2.a. of the Funding Target Attainment Percentage chart. The asset value without MAP-21 was \$2,090,455,022 as of 1/1/2013. The asset values are different because different interest rates are used to adjust for the timing of contributions, distributions and expected earnings.

2014 ANNUAL FUNDING NOTICE

Savannah River Nuclear Solutions, LLC Multiple Employer Pension Plan

Introduction

This notice includes important information about the funding status of your single-employer pension plan (the "Plan"). It also includes general information about the benefit payments guaranteed by the Pension Benefit Guaranty Corporation ("PBGC"), a federal insurance agency. All traditional pension plans (called "defined benefit pension plans") must provide this notice every year regardless of their funding status. This notice does not mean that the Plan is terminating. It is provided for informational purposes and you are not required to respond in any way. This notice is required by federal law. This notice is for the plan year beginning 1/1/2014 and ending 12/31/2014 ("Plan Year").

How Well Funded Is Your Plan

The law requires the administrator of the Plan to tell you how well the Plan is funded, using a measure called the "funding target attainment percentage." The Plan divides its Net Plan Assets by Plan Liabilities to get this percentage. In general, the higher the percentage, the better funded the plan. The Plan's Funding Target Attainment Percentage for the Plan Year and each of the two preceding plan years is shown in the chart below. The chart also shows you how the percentage was calculated.

Funding Target Attainment Percentage			
	2014	2013	2012
1. Valuation Date	1/1/2014	1/1/2013	1/1/2012
2. Plan Assets			
a. Total Plan Assets	\$2,310,430,147	\$2,105,135,043	\$1,871,899,660
b. Funding Standard Carryover Balance	\$0	\$0	\$0
c. Prefunding Balance	\$0	\$0	\$0
d. Net Plan Assets (a)-(b)-(c)=(d)	\$2,310,430,147	\$2,105,135,043	\$1,871,899,660
3. Plan Liabilities	\$2,601,325,648	\$2,631,418,803	\$2,300,867,700
4. At-Risk Liabilities	Not applicable	Not applicable	\$2,396,740,191
5. Funding Target Attainment Percentage (2d)/(3)	88.81%	80.00%	81.35%

Plan Assets and Credit Balances

The chart above shows certain "credit balances" called the Funding Standard Carryover Balance and Prefunding Balance. A plan might have a credit balance, for example, if in a prior year an employer contributed money to the plan above the minimum level required by law. Generally, an employer may credit the excess money toward the minimum level of contributions required by law that it must make in future years. Plans must subtract these credit balances from Total Plan Assets to calculate their Funding Target Attainment Percentage.

Plan Liabilities

Plan Liabilities in line 3 of the chart above is an estimate of the amount of assets the Plan needs on the Valuation Date to pay for promised benefits under the Plan.

At-Risk Liabilities

The law considers a plan to be in "at risk" status if its funding target attainment percentage for the prior plan year was below a legal threshold. The sponsor of an at-risk plan must make certain assumptions and contribute more money to that plan. For example, plans in "at-risk" status must assume that all workers eligible to retire in the next 10 years will do so as soon as they can, and that they will take their distribution in whatever form would create the highest cost to the plan, without regard to whether those workers actually do so. The additional contributions that result from "at-risk" status may then remove a plan from this status. The Plan was in "at-risk" status in 2012. The At-Risk Liabilities row in the chart

above shows the increased liabilities resulting from “at-risk” status.

Year-End Assets and Liabilities

The asset values in the chart above are measured as of the first day of the Plan Year. They also are “actuarial values.” Actuarial values differ from market values in that they do not fluctuate daily based on changes in the stock or other markets. Actuarial values smooth out those fluctuations and can allow for more predictable levels of future contributions. Despite the fluctuations, market values tend to show a clearer picture of a plan’s funded status at a given point in time. As of 12/31/2014, the fair market value of the Plan’s assets was \$2,557,418,847. On this same date, the Plan’s liabilities, determined using market rates, were \$3,614,068,619.

Participant Information

The total number of participants and beneficiaries covered by the Plan on the Valuation Date was 17,603. Of this number, 4,961 were current employees, 8,525 were retired and receiving benefits, and 4,117 were retired or no longer working for the employer and have a right to future benefits.

Funding & Investment Policies

Every pension plan must have a procedure to establish a funding policy for plan objectives. A funding policy relates to how much money is needed to pay promised benefits. The funding policy of the Plan is to make contributions to the plan that are at least as great as the amount to satisfy the minimum required contribution determined under ERISA.

Pension plans also have investment policies. These generally are written guidelines or general instructions for making investment management decisions. The investment policy of the Plan is to invest such that the Fund’s annualized total return over a rolling period of five years should, after manager’s fees, exceed the return that would have been achieved if the Fund had been invested 10% in the Standard & Poor’s 500 Index, 5% in the Russell 2500 Index, 30% in the Barclays Capital (“BC”) Long Government/Credit Bond Index, 15% in the MSCI All Country World ex-U.S. Index, 15% in the MSCI All Country World Index, 5% in the NCREIF ODCE Index, 2% in the Dow Jones Wilshire Float-Adjusted REIT Index, and 18% in a Custom Benchmark of the underlying allocations within Diversified Strategies.

Under the investment policy, the Plan’s assets were allocated among the following categories of investments, as of the end of the Plan Year. These allocations are percentages of total assets:

Asset Allocations

Cash (interest bearing and non-interest bearing)	1.1%
U.S. Government Securities	7.2%
Corporate debt instruments (other than employer securities):	
Preferred	9.1%
All Other	5.3%
Corporate stocks (other than employer securities):	
Common	19.2%
Partnership/joint venture interests	17.8%
Value of interest in common/collective trusts	35.7%
Value of interest in registered investment companies (e.g., mutual funds)	4.6%
Total	100.0%

For information about the plan’s investment in any common/collective trusts, as described in the chart above, contact the plan administrator.

Right to Request a Copy of the Annual Report

Pension plans must file annual reports with the US Department of Labor. The report is called the “Form 5500.” These reports contain financial and other information. You may obtain an electronic copy of your Plan’s annual report by going to www.efast.dol.gov and using the search tool. Annual reports also are available from the US Department of Labor, Employee Benefits Security Administration’s Public

Disclosure Room at 200 Constitution Avenue, NW, Room N1513, Washington, DC 20210, or by calling 202.693.8673. Or you may obtain a copy of the Plan's annual report by making a written request to the plan administrator.

Annual reports do not contain personal information, such as the amount of your accrued benefits. You may contact your plan administrator if you want information about your accrued benefits. Your plan administrator is identified below under "Where To Get More Information."

Summary of Rules Governing Termination of Single-Employer Plans

If a plan terminates, there are specific termination rules that must be followed under federal law. A summary of these rules follows.

There are two ways an employer can terminate its pension plan. First, the employer can end a plan in a "standard termination" but only after showing the PBGC that such plan has enough money to pay all benefits owed to participants. Under a standard termination, a plan must either purchase an annuity from an insurance company (which will provide you with periodic retirement benefits, such as monthly for life or for a set period of time when you retire) or, if the plan allows, issue one lump-sum payment that covers your entire benefit. Your plan administrator must give you advance notice that identifies the insurance company (or companies) selected to provide the annuity. The PBGC's guarantee ends upon the purchase of an annuity or payment of the lump-sum. If the plan purchases an annuity for you from an insurance company and that company becomes unable to pay, the applicable state guaranty association guarantees the annuity to the extent authorized by that state's law.

Second, if the plan is not fully-funded, the employer may apply for a distress termination. To do so, however, the employer must be in financial distress and prove to a bankruptcy court or to the PBGC that the employer cannot remain in business unless the plan is terminated. If the application is granted, the PBGC will take over the plan as trustee and pay plan benefits, up to the legal limits, using plan assets and PBGC guarantee funds.

Under certain circumstances, the PBGC may take action on its own to end a pension plan. Most terminations initiated by the PBGC occur when the PBGC determines that plan termination is needed to protect the interests of plan participants or of the PBGC insurance program. The PBGC can do so if, for example, a plan does not have enough money to pay benefits currently due.

Benefit Payments Guaranteed by the PBGC

When the PBGC takes over a plan, it pays pension benefits through its insurance program. Only benefits that you have earned a right to receive and that cannot be forfeited (called vested benefits) are guaranteed. Most participants and beneficiaries receive all of the pension benefits they would have received under their plan, but some people may lose certain benefits that are not guaranteed.

The amount of benefits that PBGC guarantees is determined as of the plan termination date. However, if a plan terminates during a plan sponsor's bankruptcy, then the amount guaranteed is determined as of the date the sponsor entered bankruptcy.

The PBGC maximum benefit guarantee is set by law and is updated each calendar year. For a plan with a termination date or sponsor bankruptcy date, as applicable in 2015, the maximum guarantee is \$5,011.36 per month, or \$60,136.32 per year, for a benefit paid to a 65-year-old retiree with no survivor benefit. If a plan terminates during a plan sponsor's bankruptcy, the maximum guarantee is fixed as of the calendar year in which the sponsor entered bankruptcy. The maximum guarantee is lower for an individual who begins receiving benefits from PBGC before age 65 reflecting the fact that younger retirees are expected to receive more monthly pension checks over their lifetimes. Similarly, the maximum guarantee is higher for an individual who starts receiving benefits from PBGC after age 65. The maximum guarantee by age can be found on PBGC's website, www.pbgc.gov. The guaranteed amount is also reduced if a benefit will be provided to a survivor of the plan participant.

The PBGC guarantees "basic benefits" earned before a plan is terminated, which include:

- pension benefits at normal retirement age;

- most early retirement benefits;
- annuity benefits for survivors of plan participants; and
- disability benefits for a disability that occurred before the date the plan terminated or the date the sponsor entered bankruptcy, as applicable.

The PBGC does not guarantee certain types of benefits:

- The PBGC does not guarantee benefits for which you do not have a vested right, usually because you have not worked enough years for the company.
- The PBGC does not guarantee benefits for which you have not met all age, service, or other requirements.
- Benefit increases and new benefits that have been in place for less than one year are not guaranteed. Those that have been in place for less than five years are only partly guaranteed.
- Early retirement payments that are greater than payments at normal retirement age may not be guaranteed. For example, a supplemental benefit that stops when you become eligible for Social Security may not be guaranteed.
- Benefits other than pension benefits, such as health insurance, life insurance, death benefits, vacation pay, or severance pay, are not guaranteed.
- The PBGC generally does not pay lump sums exceeding \$5,000.

In some circumstances, participants and beneficiaries still may receive some benefits that are not guaranteed. This depends on how much money the terminated plan has and how much the PBGC recovers from employers for plan underfunding.

For additional general information about the PBGC and the pension insurance program guarantees, go to the "General FAQs about PBGC" on PBGC's website at www.pbgc.gov/generalfaqs. Please contact your employer or plan administrator for specific information about your pension plan or pension benefit. PBGC does not have that information. See "Where to Get More Information About Your Plan," below.

Corporate and Actuarial Information on File with PBGC

A plan sponsor must provide the PBGC with financial information about itself and actuarial information about the plan under certain circumstances, such as when the funding target attainment percentage of the plan (or any other pension plan sponsored by a member of the sponsor's controlled group) falls below 80 percent (other triggers may also apply). The sponsor of the Plan, Savannah River Nuclear Solutions, LLC, and members of its controlled group, if any, were subject to this requirement to provide corporate financial information and plan actuarial information to the PBGC. The PBGC uses this information for oversight and monitoring purposes.

Where to Get More Information

For more information about this notice, you may contact:

Benefits Solutions Service Center
 Building 730-1B
 Aiken, SC 29802-9975
 Phone: (800) 368-7333
 Fax: (803) 952-5925
SERVICE-CENTER@srs.gov

For identification purposes, the official plan number is 001 and the plan sponsor's name and employer identification number or "EIN" are Savannah River Nuclear Solutions, LLC and 61-1565172.
